New Inbound Rule Wizard

Action

Specify the action to be taken when a connection matches the conditions specified in the rule.

Steps:

Rule Type

Protocol and Ports

Action

Profile

Name

What action should be taken when a connection matches the specified conditions?

☒ Allow the connection

This includes connections that are protected with IPsec as well as those are not.

☐ Allow the connection if it is secure

This includes only connections that have been authenticated by using IPsec. Connections will be secured using the settings in IPsec properties and rules in the Connection Security Rule node.

Customize...

☐ Block the connection
